

SPACE FOR PEOPLE – FROM GREY TO GREEN

Part of the net zero ambitions city wide is the need to make the city more liveable and prepare for the city of the future; comfortable living, attractive and healthy public realm, more emphasis on sustainable transport, more space for pedestrians and cyclists; These ambitions permeate all our activities;

Space for People
HOVE CIVIC SOCIETY
 Leading the way in preserving and creating attractive and sustainable Space for People to live, work and enjoy, now and in the future.

Charity registered Organisation CIO number 1101602

For many years the Society primarily engaged in commenting on planning proposals for Hove and providing a lecture and visiting programme to places of interest. Gradually we have moved to actively getting involved in helping to change our public realm. Our first project was Restoring our Victorian Street Tree Heritage, followed by the Hove Plinth and the first sculpture on it. Since then we have become advocates for a network of Pocket Parks and a major enhancement of our main shopping street in Hove. On the back of our raised ambitions we have been recognised by the Charity Commission as a Charitable Incorporated Organisation (CIO)

Our public realm has been neglected over the years and we hope the Society with the strong support of its members can make a noticeable difference.

Help us make that difference!
